# HARMONISED DIGITAL IDENTITY
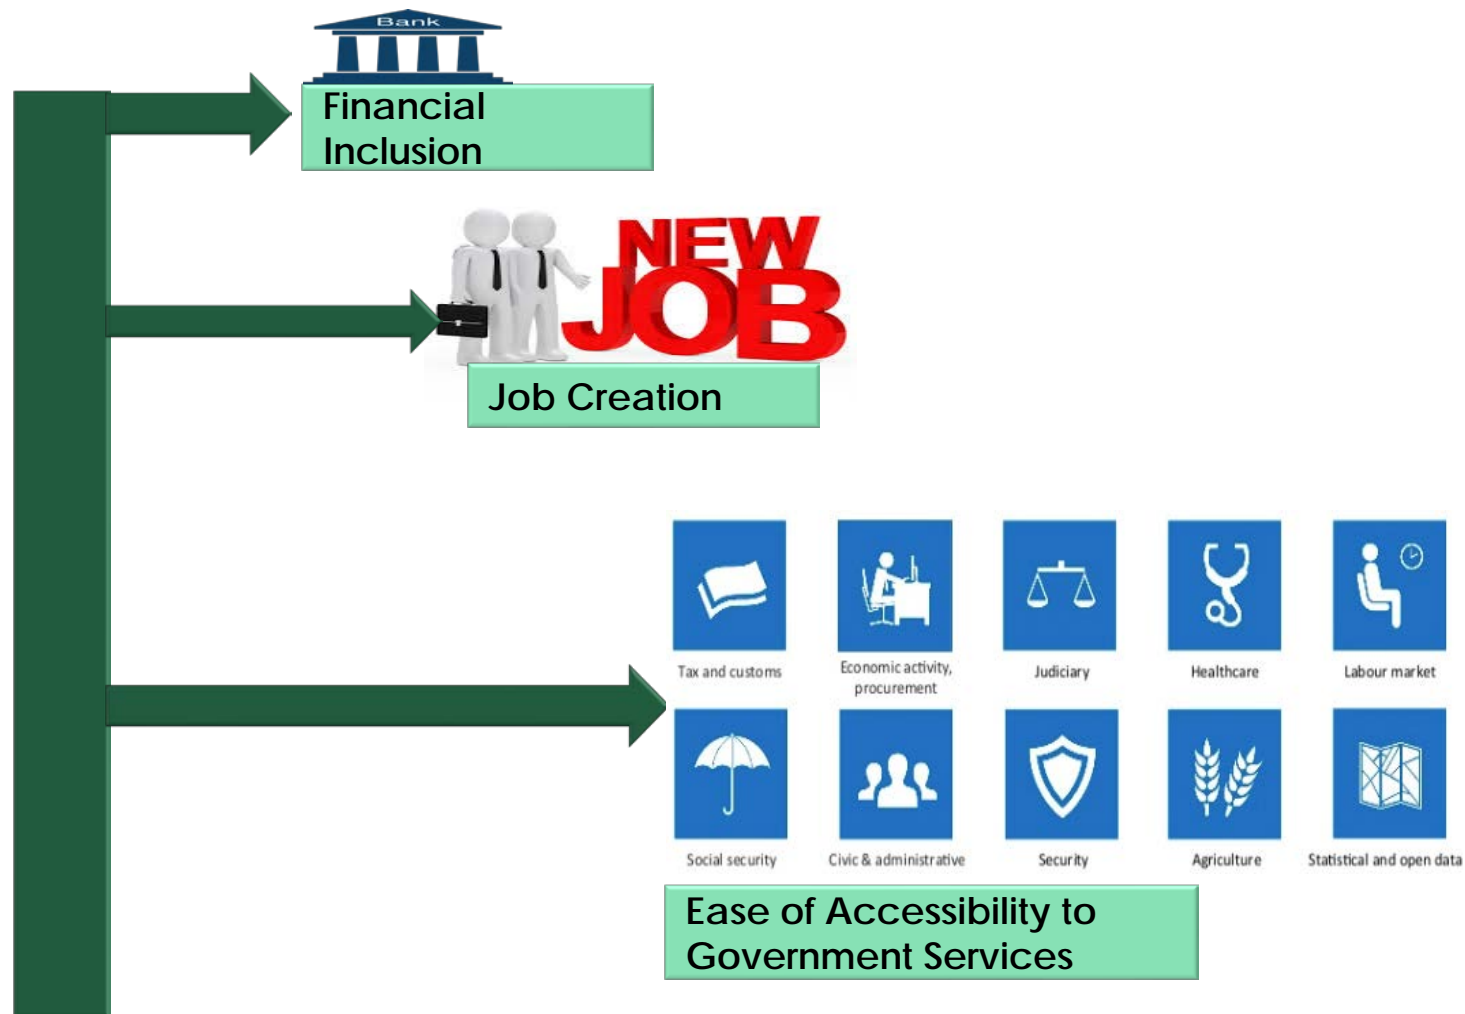

For a Socially Reponsible Society

HARMONISED DIGITAL IDENTITY

As a Pillar of Digital Economy
SOCIAL IMPACT OF DIGITAL IDENTITY PROGRAMME

Financial Inclusion

Job Creation

Tax and customs | Economic activity, procurement | Judiciary | Healthcare | Labour market

Social security | Civic & administrative | Security | Agriculture | Statistical and open data

Ease of Accessibility to Government Services

SYSTEM DESIGN VISION
Digital: National Identity Number (NIN)
Unique: Using biometrics
Minimalist: 8-10 data fields
Fundamental: Verified across ministries for access to service
Civil Registration Leakages: Birth and Death Registration
**Technology Neutral:** To avoid vendor lock-in
Trustworthy: Built with legal, technical & security safeguards to ensure data protection & privacy

**Target:** A lifelong ID for every individual physically present in Nigeria over 3-5 years

## Harmonised Digital Identity Ecosystem

Leverage the Capacity of All Identity Stakeholders in the System to Reach Full Coverage

NIMC

Stores core data for Unique ID

Sets data standards and certifies field operators

Provide & Authenticate NIN

Provide individual's enrolment data

ID Ecosystem

| NPopC | NIBSS | Other agencies |
| NIS | FRSC | Private Sector |

Enter a Valid NIN

Uploaded to a secured NIMC server

IF

Valid NIN

Else

Verified against the central Database

ECOMMERCE
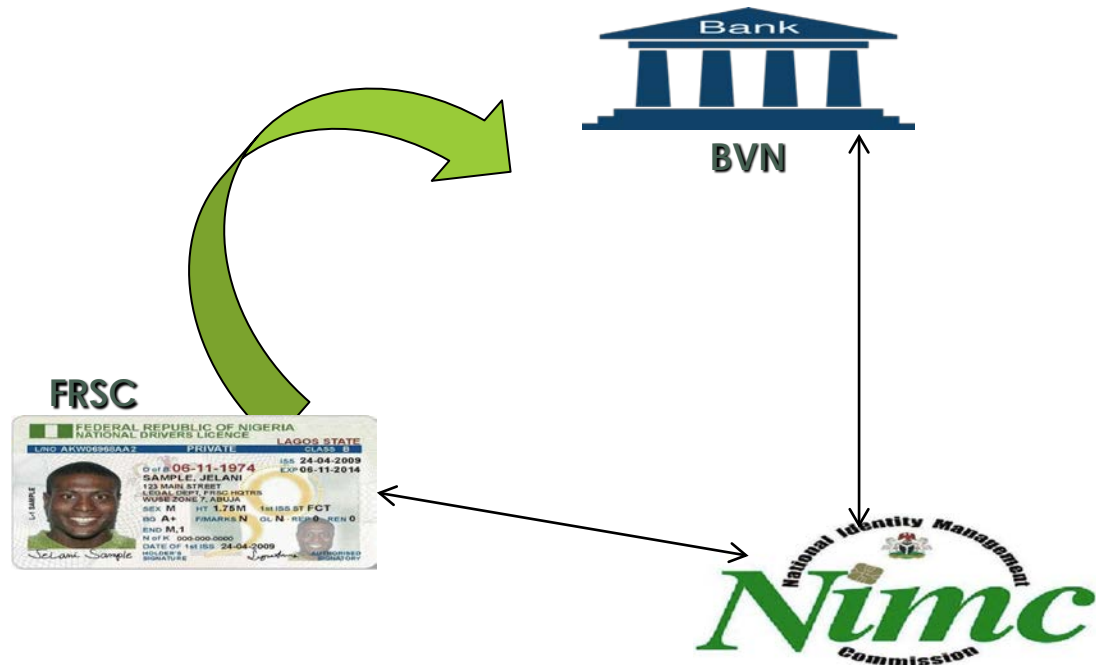

1. The Vehicle's plate number is sent to the Harmonised Database

2. NIMC verifies owners information to the relevant enforcement agency (NPF, FRSC etc)

3. The agency issues a fine to the traffic offender and an enforceable Post No Debit (PND) on his bank account if fine is not paid after a specific number of days
(May require policy back-up)

Bank

BVN

FRSC

Nimc
National Identity Management Commission

Apply online

Pay the license fee online or at the Bank

Obtain License

Advantages

- Makes the renewal process more efficient

- Encourages timely renewal of licenses
Change of Name due to Marriage, Divorce etc.

Name Update
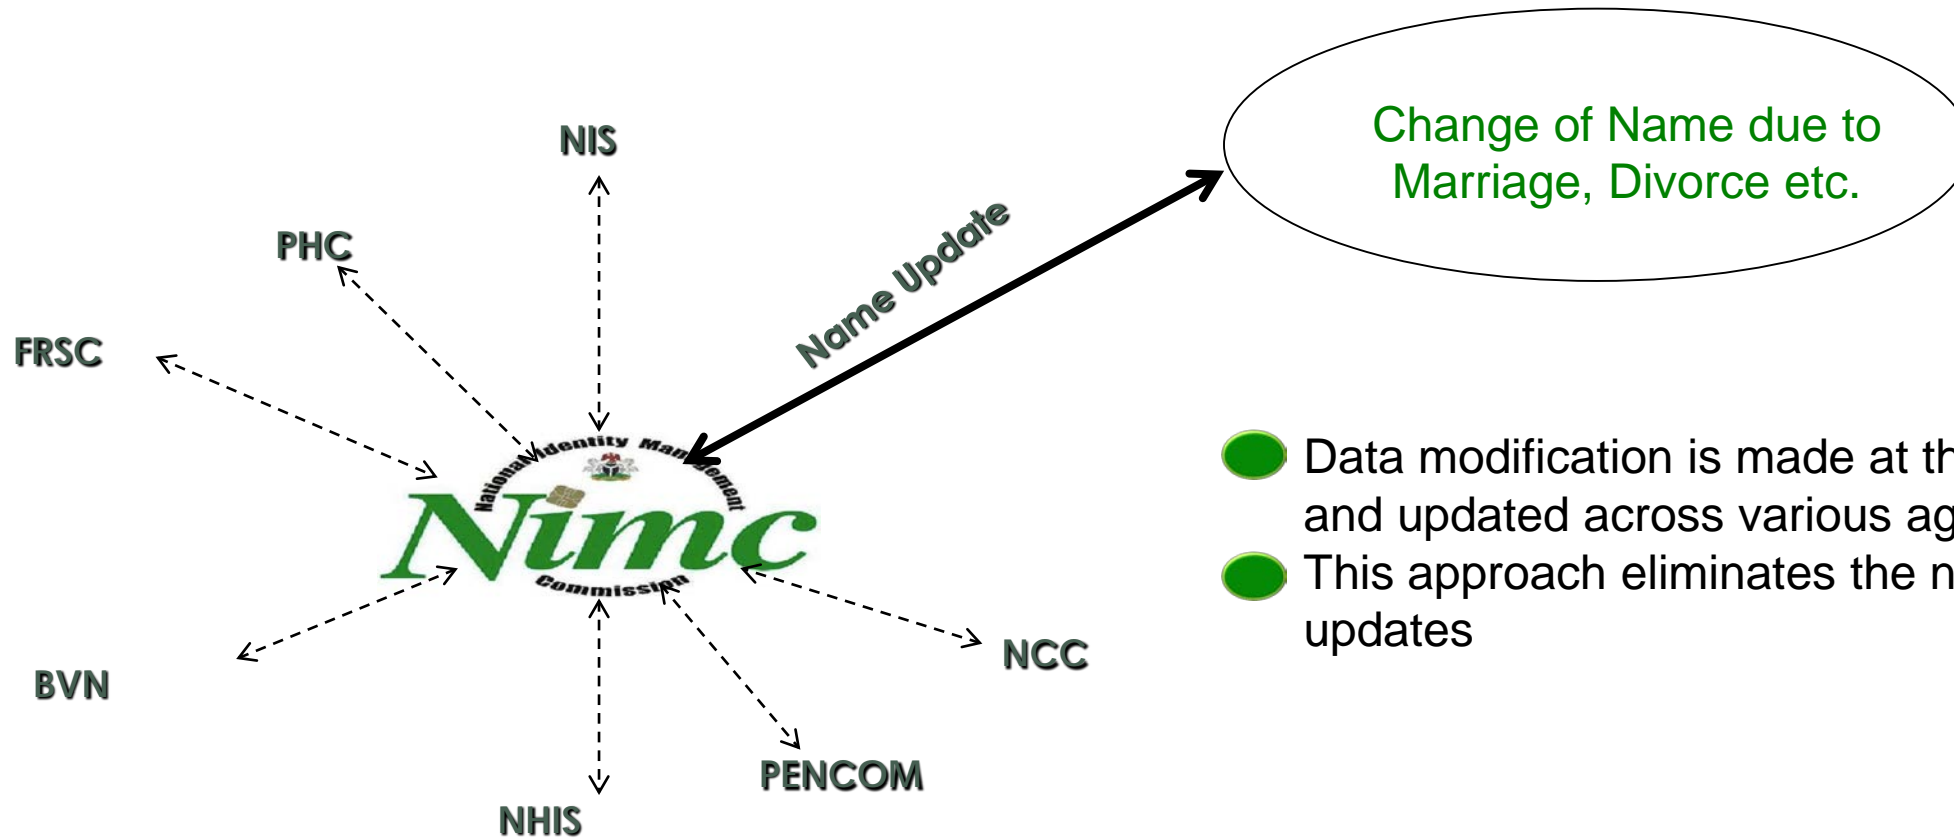

- Data modification is made at the Central Database and updated across various agencies
- This approach eliminates the need for multiple updates
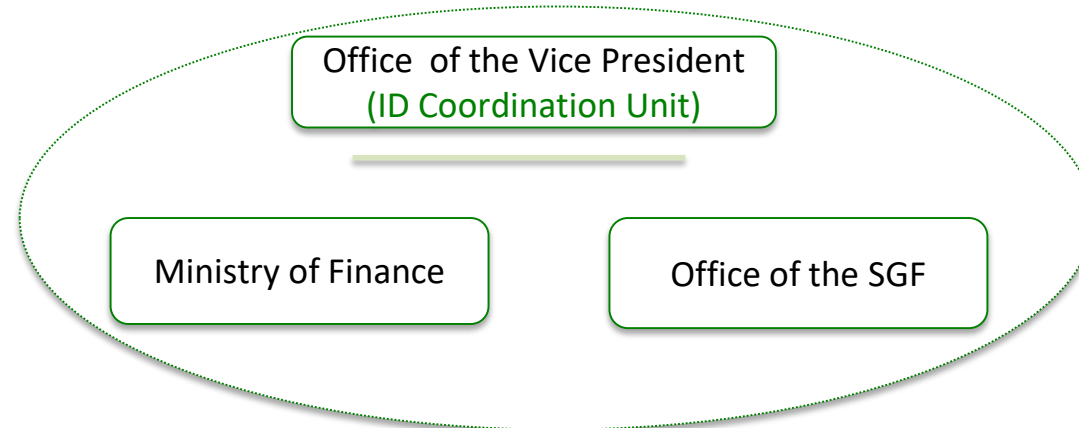

NIS

PHC

FRSC

BVN

NHIS

PENCOM

NCC

Enabling **National Policy**, **Legal Framework** and **Capacity Development** to support digital, unique & foundational identification; data protection   & privacy; **Strengthening Cybersecurity** across the ecosystem.
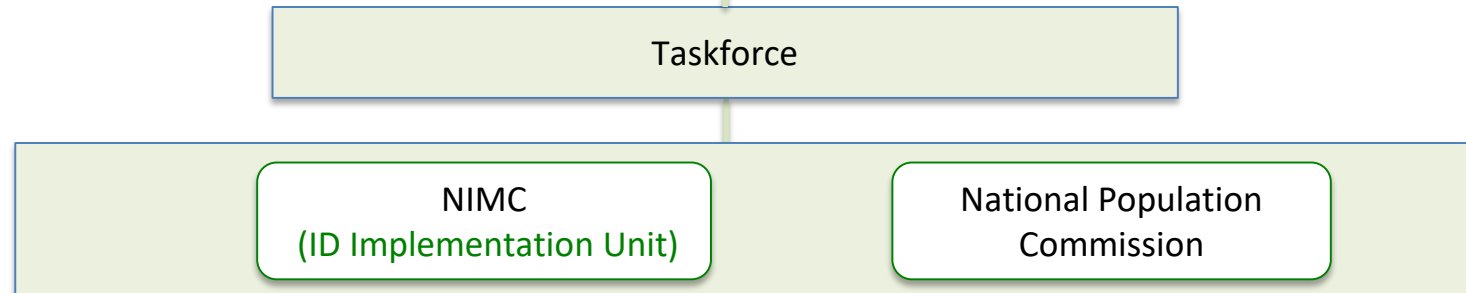

Governance and Coordination

Office of the Vice President
(ID Coordination Unit)

Ministry of Finance

Office of the SGF

Taskforce

Foundational Identification

NIMC
(ID Implementation Unit)

National Population Commission

Functional data

Federal agencies using ID (CBN, INEC, NCC, etc)

State agencies using ID

Security agencies using ID (NIS, Police, etc)

Private Sector using ID (Banks, Telcos, etc)
Educating and Sensitising Communities on the Benefits of Digital Identity
