Integrated border management at the service of identity management

Christophe RAPINE - Director / Borders & Traveller Processing

《〈〉》 IDEMIA

24th April 2018

Let's journey through border management evolution

IDEMIA

Starting point: National Security

DRIVERS

National **security**

Fight terrorism and crime

FOCUS

Control of entry/exit

Check visitors' **background** and **identity**

Moving towards: Passenger Facilitation

DRIVERS

Attract visitors

Attract airlines

Foster economic development

FOCUS

Convenience

Ease the flow of passengers at boarders (starting from visa process if any)

Enhance passenger journey in the airport

Program FAST at Changi Airport

IDEMIA partnership with Changi Airport Group - Singapore:

World's **best airport** for 5 years in a row

Worldwide rank #6 for **international passenger traffic**

58 million passenger traffic in 2016

2017

2018

1st quarter 2017
Operational testing (in-site)

3rd quarter 2017
System in operation

66
Facial recognition kits
for automated self drop-offs

50
Self boarding gates

16
Border control gates
at Arrival

18
Integrated border control
gates at Departure

16
Million passenger traffic
per annum

DEPARTURE

ARRIVAL

Self Bag Drop

Security & Immigration

Self Boarding

Connect border management

with ID Ecosystem

to build robust,

reliable, trusted identities

Welcome to Integrated Border Management !

DRIVERS

Build and **ensure** trust and security

**Manage identities** of the entire population: citizens, residents, visitors

FOCUS

Ensure efficiency: avoid duplicate efforts and increase reliability of data

Enhance comfort of use

Integrated Border Management in action

CI (NID + biometrics) +attributes

CR

Entry/ Exit

PP

Social Welfare

Voters

Benefits for the **government**

Manage residents identity

Leverage same ecosystem for residents

Build trust with their counterparts (visa waiver)

Benefits for the **users**

Comfort of use: facilitate administrative processes

Access rights given in the country of residence

Souvenirs

BORDER MANAGEMENT HAS EVOLVED

It is now an enabler
of **economic development**

And a strong contributor to **ID Ecosystem**

Fostering trust

Improving efficiency

Enhancing comfort of use
