THE 6TH ANNUAL MEETING OF THE ID4AFRICA MOVEMENT

ID4Africa 2020
28-30-October 2020
MARRAKESH, MOROCCO

THEME: ID360 - DIGITAL MULTIPLICITY OF UNIQUE IDENTITY

16:00 – 19:00 DPIS

SIDE MEETING ON DATA PROTECTION IN IDENTITY SYSTEMS

DPIS (Data Protection in Identity Systems) builds on the foundation established by the first data protection meeting in 2019 (RADPA) and shifts the conversation forward while still focusing specifically on identity systems in Africa. It is held as a side meeting to the Annual General Meeting and is **open only** to the Data Protection Authorities in Africa (DPAs) and invited international and civil society actors in this domain.

If you would like to be considered for an attendance pass, please write to us explaining your interest in data protection and privacy (speakers@id4Africa.com).

DIGITAL (VIRTUAL) IDENTITY
Thematic Partner: Mastercard

This session, which kicks off the 4-session thematic track, provides an overview of the role of digital (virtual) identity (DI) in supporting economies and the digital transformations of government and enterprise interactions with citizens and consumers. The overall track consists of two sessions of presentations, followed by a spotlight session focusing on a special application of digital identity, namely G2P transfers, and a fourth session which is a panel discussion that sums up the day and sets up the roadmap for digital identity as viewed from multiple perspectives.

- [\[Moderator's Presentation\]](#)

Dr. Emrys SCHOEMAKER, Research Director, Caribou Digital

8:30 – 10:30 InF2

SPOTLIGHT: GENDER EQUITY IN ID SYSTEMS

This session features a lineup of world-renowned researchers and experts who examine the question of gender equity in ID systems. It presents evidence and case studies regarding barriers to access and explores policies required to ensure that ID systems overcome inherent exclusion risks and empower women instead of leading to outcomes detrimental to gender equity. The session consists of a series of presentations followed by a panel discussion.

- [Moderator's Opening Remarks](#)
Judy OBITRE-GAMA, Executive Director, National Identification and Registration Authority (NIRA), Uganda
- [Gender Matters in ID Systems: A proposed framework for policymakers](#)

- **Inclusive Enrollment through Public Participation & Empowerment**
Mustafa MAHMOUD, *Senior Program & Advocacy Officer, Namati*

THEME: ID360 - DIGITAL MULTIPLICITY OF UNIQUE IDENTITY

8:30 – 10:30 InF4

IDENTITY DATA RISKS

The session explores the range of risks that emerge when data accumulates either through enrollment or through identity-enabled use. It starts with a series of presentations from front-line practitioners on data protection and privacy, followed by a panel discussion that brings together representatives of data protection authorities as well as identity authorities to join the dialogue.

- **Moderator's Opening Remarks**
Drudeisha MADHUB, Commissioner, Privacy and Data Protection, Data Protection Office, Mauritius

DIGITAL IDENTITY & SERVICE ECOSYSTEMS
Thematic Partner: Mastercard

This session takes the dialogue of InF1 forward by exploring the types of service ecosystems that can be empowered by the different forms of digital identity. The focus of the session will be on digital identity schemes

THEME: ID360 - DIGITAL MULTIPLICITY OF UNIQUE IDENTITY

most relevant to Africa where lack of infrastructure poses severe challenges for the deployment and scaling of such schemes, and where the requirement of inclusiveness and access to all groups is of paramount importance. The objective is to demonstrate viable functional applications built on trusted digital identities for people, easily accessible from points of services. The link of these schemes with authoritative or official foundational identity will also be explored.

Bart SYMONS, *Director of ZetesConfidens Trust Services, Zetes People ID*

11:30 – 13:00 InF8

RISK MITIGATION

This session is based on the premise that within the development context, one cannot rely on institutional capacity to monitor and enforce data protection laws, and as a consequence, risk mitigation needs to be assured by design and needs to allow individuals to maintain control over their data. This session provides an overview of technological solutions, system and security architectures or designs for data protection, privacy innovations and tools, practices for enhanced transparency, and institutional and legal frameworks that could help address the observed data risks while allowing for controlled data access and data sharing.

- [Moderator's Opening Remarks](#)
Léontine GBATO, *Director of Personal Data Protection, ARTCI, Côte d'Ivoire*

EXHIBITION, NETWORKING & LUNCH

14:00 – 15:30 InF9

**SPOTLIGHT: DIGITAL IDENTITY FOR (G2P)
SERVICES**

Thematic Partner: Mastercard

This spotlight session examines G2P payments as a form of a digital identity-enabled service and explores the range of experiences around the platforms that have proven to be effective in countries with similar developmental context as Africa. It also explores whether commercial off-the-shelf platforms could be leveraged to affect G2P payments in a cost-effective way. The role of the credit providers, commercial banking and telecom sectors will be explored.

- **Moderator's Opening Remarks**
Robert PALACIOS, Global Thematic Group Leader, The World Bank
- **India's Experience with Identity Linked Benefits Transfers**
Arun SHARMA, Director, Direct Benefits Transfer Mission, Cabinet Secretariat, The Government of India

**DATA MOBILITY: LEVERAGING VALUE FROM
IDENTITY DATA**

THEME: ID360 - DIGITAL MULTIPLICITY OF UNIQUE IDENTITY

This session builds on discussions in Session 2 in this Thematic Track and takes it towards a pro-growth, pro-innovation perspective to examine practices that ensure people are not denied the benefits of their data assets and that the growth of economies for the overall benefit of society and for poverty eradication is not compromised through restrictive approaches to data. Key to achieving that goal is data mobility. This session examines the specific types of investments needed to cultivate a data ecosystem that is both trusted and creates value for people, markets, and government.

- **Moderator's Opening Remarks**
Michael PISA, Policy Fellow, Center for Global Development

14:00 – 16:00 PS7	IDENTITY IN THE FISHBOWL Sponsored by Mühlbauer
<p><i>Identity in the Fishbowl is a debate session where the audience is the panel. It allows the entire group to participate in the conversation to give their input and perspective. Since 2016 it has become the highlight of the AGM with high levels of passionate engagement and dialogue. The session will summarize, in a crowd sourced way, the key take away messages accumulated over the three days of discussion, and will identify the road ahead for policy-making, technological and operational challenges.</i></p> <p>The session is moderated by Dr. Joseph J. Atick, Executive Chairman, ID4Africa</p>	
16:00 – 16:30 PS8	CLOSING CEREMONY

ID4AFRICA RAPPOREURS	
<p><i>Each year ID4Africa implements a system whereby rapporteurs who are subject matter experts take notes and synthesize each session. This information is used by ID4Africa to be included in the Annual Report, the Knowledge Hub, and other publications in support of information exchange and capacity-building.</i></p>
