Africa reunited for another “intense and awe inspiring” Annual Meeting.
THIS YEAR’S THEME

PATHWAYS TO DIGITAL IDENTITY

Recognizes that there is no unique way for achieving identity for all but that there are many pathways depending on what assets a country has and what priorities dictate action.

The Meeting was significant in many ways. The exchange was substantive, the gathering was truly pan-African and inclusive and the intensity was at an all time high.
Pan-African participation reached 90% of Africa in 2017.
