

## Approach to Maximize ID program Benefits

Thampy Koshy | Partner | EY India

24<sup>th</sup> April 2018 | ID4Africa Conference | Abuja, Nigeria

# Evolving ID Systems

From a piece of paper endorsing identity of a person to a digital infrastructure that enables universal inclusion and transforms service delivery

## Government

- ❑ Inclusion in service delivery to all eligible entities
- ❑ Targeted service delivery
- ❑ Reduce/ Avoid leakages in social benefits distribution
- ❑ Better Election Management

## Private Sector

- ❑ Stronger, faster and cheaper KYC
- ❑ More efficient and convenient service delivery
- ❑ Reduction in fraud
- ❑ New service offering

## Resident

- ❑ Enabling access to service
- ❑ Easy service delivery from multiple locations
- ❑ Prevent unauthorized access of benefits
- ❑ Innovating service offerings

# Role focus for National ID

Uniquely identifies every person and give that person a means to prove identity to a third party

## Biometric based digital ID

Every person has an identity

One person has only one identity

## Authentication of Identity

A credential to prove identity

Mechanism to verify the credential

# Progression of National ID

## Building ID system

Creating sustainable infrastructure to build an **inclusive** Identity program

## Building on ID System

**Interfacing** ID systems to service delivery (government and private sector enterprises) to improve **efficiencies** and reduce leakages

## Building around ID System

Deploying an **innovation ecosystem** around ID and bring about transformation of governance and industry

# Building ID

## Establishing infrastructure to issue every resident a unique identity

### Big Trends

- 1 | Data fields to match the role focus of ID programs
- 2 | Stress on digital authentication; moving to mobile authentication
- 3 | Innovative strategies for faster coverage
- 4 | Strategies to integrate with CRVS
- 5 | Increase multilateral support for ID programs
- 6 | A primarily open source driven technology stack that will allow governments enough flexibility to easily upgrade critical system components with lesser vendor dependencies
- 7 | Call for adoption of global best practices in procurement

# Not just Building an ID, Building on ID

Interfacing ID systems to service delivery (government and private sector enterprises) to improve efficiencies and reduce leakages

## Peru National Identity Program

Delivery of financial services, health insurance, social payments, pensions, scholarships and similar services using linkages with National ID

## Estonia National Identity Program

Estonia provide multiple channels for citizens to authenticate themselves i.e. ID card (offline), Mobile ID (using SIM card) and Smart ID (App based)

# Not just Building an ID, Building around ID

Deploying an innovation ecosystem around the ID and bring about transformation of governance and industry

## India National Identity Program

IndiaStack is a set of APIs that allow governments, businesses, startups and developers to utilize an unique digital infrastructure to solve India's problem towards presence less, paperless and cashless service delivery.

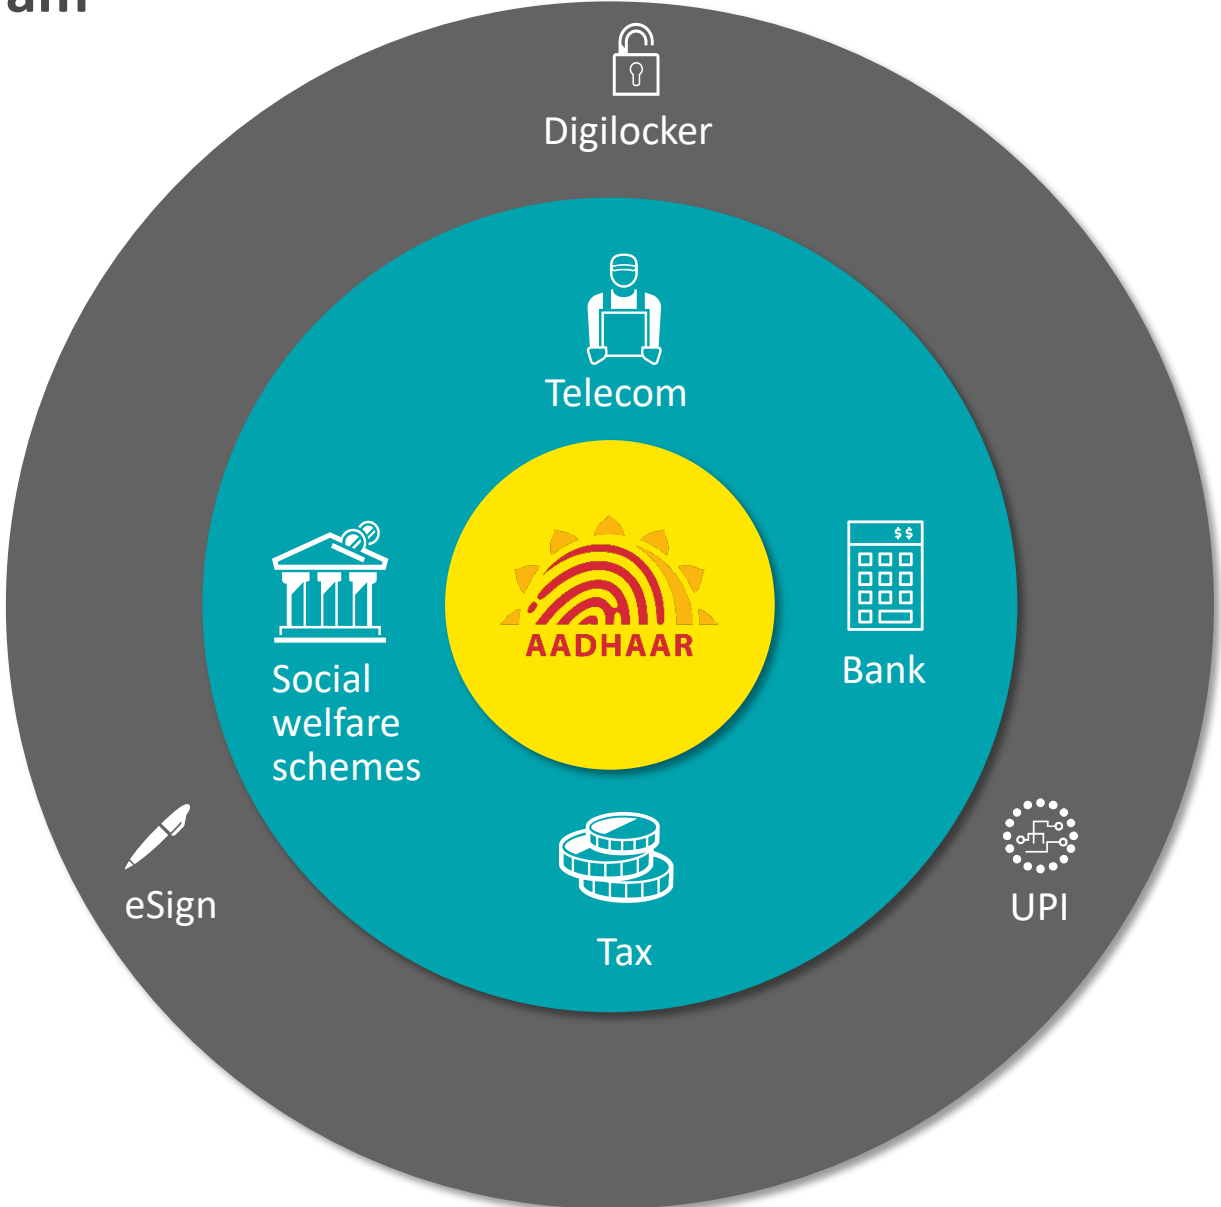

## European STORK

Project STORK was established as a European e-ID interoperability platform that lets citizens access electronic information across borders by using their national e-ID for authentication

# Evolution of India's National Identity Program

## Aadhaar in a glance

<b>1.12 Billion</b> plus enrolments	<b>15 Billion</b> plus authentication
<b>4 Billion</b> plus eKYC done	<b>30 million</b> authentication requests per day
<b>250 million</b> plus bank account linked	<b>171 Million</b> plus Aadhaar Updated
