An analysis from IDEA shows that the total number of registered voters has always been lower than the total estimate of the VAP in each decade from 1971-2010.

Global voter turnout was fairly stable between the 1940s and the 1980s, falling only slightly from 78% to 76% cent over the entire period. It then fell sharply in the 1990s to 70%, and continued its decline to reach 66% in the period of 2011–2015.

What is the election that people really want

Transparent   Trustable    Efficient
Digitalization in Election
iCode is an advanced technology from EMP; it should be supported by Intelligent Terminal.
Improving Enrollment Experience – One ID One Vote

Smart devices enable people to register from anywhere!
Improving Enrollment/Verification Experience
What is iCode? A trusted identity.

iCode, refers to a graphic code consists of ‘QR code + Biometrics’, which can be authenticated offline using intelligent mobile terminal, and it can carry different data of personal features. It enhances the security level of current “QR code” issues, easy to tamper, copy, or deny, etc.. It is a new secure coding system of reading convenience, high capacity, and high security.

**Technical Features :**

- iCode adopts Reed Solomon algorithm for error correction and tolerance adjustment;
- 4-level error correction options: 7%, 15%, 25%, and 30%;
- Coding capacity may adjustable under 1000 byte.
- The face photo is using digital water printing with anti-fake technology
Easier Participation in Elections

iCode can be registered & verified through a smartphone very easily, which is a kind of more convenient participation way!
EVM – Electronic Voting Machine

EVM

- Block-chain
- Tamper-proof
El-Rufai Hails Conduct Of Kaduna LG Polls

Gov El-Rufai described the exercise as peaceful and orderly after casting his vote at Ungwar Sariki polling unit in Kaduna North LGA.

The governor Nasir El-Rufai of Kaduna State said:

“The whole voting process just took me less than 10 seconds, so it is quite easy, very smooth and straightforward.”

“I think it can work at the national level. It has been successful now and we believe it can be duplicated across the country.”

EVM provides Voter Verifiable Paper Audit Trail (VVPAT) Systematic Data Monitoring on Voting Platform
End to End Security

- Data and system backup
- Transmission protection
- Encrypted storage
- Block-Chain Technology
- Equipment Anti-dismantle

Multiple Distributed Key Protection Mechanism
Symmetric & Asymmetric Systems
Technology enhance Trust and Simplification

- Biometrics Recognition
- EVM (Smart Devices)
- Blockchain

More efficiency and transparency to engage more people into credible elections!
Elections in Digital Era

Traditional Voting

- Huge Workforce & Resources Allocation
- Human Interactions and Manipulations
- Manual Counting & Data Consolidation
- Time Consuming & Low Efficiency
- High Risks of Human Errors
- Not Environmental Friendly
- Data Accuracy Doubts and Disputes

Intelligent Voting

- Minimize Workforce & Resources
- Operations Cost Down
- Minimize Human Manipulations
- Fully Automatic Vote Process
- Minimize Risks of Human Errors
- Data Accuracy, Security and Traceability
- Fair, Innovative & Credible
- Data Encryption & Protection
About us
Solution Provider

Who is Emperor Technology
• Founded in 1995, with 24 years of global deployment and achievement
• IPO in 2016, China
• A leading Secure ID Solution & Service Provider

Business Units
• Public Security
• Smart Election
• Smart Banking
• Smart Transportation

Products
• Personalization Machine for Secure ID Document
  Centralize & Decentralize Personalization
• Self-service Kiosks
  KYC & Application, Identity Verification
  Document Issuance
• Smart Terminal
  Identity Enrollment & Verification, EVM

Services
Headquartered in Shenzhen, China. We also have representative offices in the India, Nigeria, United States, Russia and other countries. Our Service network covers more than 20 countries and regions around the world.

Secure ID Document Cases
• China
• Kazakhstan
• Kyrgyzstan
• Belarus
• ... ...

Smart Election Cases
• Nigerian General Election in 2015 & 2019
• Kaduna Election in 2018
Intelligent Election bring More Trust to People
